10:00 - 11:00	"Project Cost and Schedule Risk Analysis" David Hulett, Ph.D. Hulett & Associates, LLC	"What New Project Managers Need to Know But Were Afraid to Ask" PANEL James Lewis, NASA JSC Kevin Miller, NASA GSFC Ken Dolan, Capitol College Richard Ryan, NASA GSFC Ken Schwer, NASA GSFC Peter Theisinger, NASA JPL Therese Thrift, Lockheed Martin	"Using the X3D Web Standard to Simulate your Engineering Concepts" Link Parikh Rocket Technology	"Can 'Troubled Projects' be Prevented?" Mina Samil, Ph.D. Computer Sciences Corporation	"Systems Engineering Basic Principles Applied" Michael Bay Bay Engineering Innovations, Inc.	"Managing Technical Risk and the Safety Culture in Your Project" Nancy Leveson, Ph.D. Massachusetts Institute of Technology	"Associate Contractor Agreements (ACAs) and the International Space Station -- A Success Story" Mary Kerber Barrios Technology	"Integrating Scheduling and EVM Metrics" Harry Sparrow Performance Management Associates, Inc.	CASE STUDY "Ice Mitigation on Shuttle (Tank) Return to Flight" John Muratore NASA JSC Edward Rogers, Ph.D. NASA GSFC	"Requirements Management, Life and Death for Mission Success" William Gibson Southwest Research Institute	"What in the World is Project Management Maturity and How Can I Increase It?" Blanca Morales Honeywell Technology Solutions, Inc.	"Gemini: Integrated Project, Configuration, and Requirements Management" Christopher Stone Christopher Holtrey Constellation Software Engineering Corporation	
11:00 - 11:15			Break - Visit Exhibitors										
11:15 - 12:15					"Does a Good Engineer Make a Good Project Manager?" George Andrew Booz Allen Hamilton	"Systems Engineering Enablers to Help Your Project Succeed" Michael Hazen Jacobs Sverdrup Dwight Auzenne NASA JSC	"PM Role in Requirements" Ivy Hooks Compliance Automation, Inc.	"Putting Effective Cost and Schedule Reserve Management into Practice" Dorothy Tiffany NASA GSFC Walter Majerowicz Computer Sciences Corporation	"Choosing Leaders - The Key to Success" John Baniszewski NASA GSFC	"Connecting Cost Estimating and EVM with Continuous Cost-Risk Management" David Graham NASA HQ	"Managing Technology Development: Insights from the Mini AERCam R&D Project" Steven Fredrickson, Ph.D. NASA JSC	"The Hubble Experience: Working in a Multiple Center Environment" Frank Capollina NASA GSFC	"Applying Lean Principles to the Risk Management Process" Steven Waddell Reed Integration, Inc.
12:15 - 1:00	Lunch - Expo Hall A												
1:00 - 1:45	Joe Rothenberg, President, Universal Space Network, "Project Management Challenges, Tools and Tactics: Why is Project Management like Playing Whack-a mole?"												
2:00 - 3:00	"Improving Project Management with Risk Assessments Using Bayesian Estimation" Mark Powell Stevens Institute of Technology, Futron Corporation	"Basic Schedule Analysis Techniques" Walter Majerowicz Computer Sciences Corporation	"Capability Maturity Model Integration (CMMI) and Acquisition" Robert Vickroy Kasse Intitatives	"Predicting Project Completion Date with Earned Value Management Data" Ray Stratton Management Technologies	"Understanding Earned Value in Under an Hour: From WBS to Performance Measurement Baseline" Wayne Brantley University Alliance Professional Education Online, Villanova University	"Integrating Quantified Risk Management with Schedule and Cost Analysis" Tweed Ross Booz Allen Hamilton	"Collaborative Project Management: Unleashing the Potential of Cross-Functional Teams" Tim Kelley Collaborative Leaders, Inc.	"Making Decisions - Doing That Voodoo That You Do" Leon Swartz United Space Alliance, LLC (USA)	CASE STUDY "X-38 Return to Flight Decision" John Muratore NASA JSC Edward Rogers, Ph.D. NASA GSFC	"Seven Key Principles of Program and Project Success - A Best Practices Survey" Vincent Bilardo Jr. NASA GRC	"The Meaning and Importance of Culture for Project Success" Larry Suda Management Works Inc.	"Supporting NASA's Continuous Cost Risk Management (CCRM) Process with Active Risk Manager (ARM)" Lita Cuen Strategic Thought, Inc.	
3:00 - 3:15			Break - Visit Exhibitors										
3:15 - 4:15					"Project Management: Who is Doing it Right and What Are the Key Practices?" Jay Hoover NASA JSC	"Solar Dynamics Observatory: A Team Approach to Risk Management" Brent Robertson NASA GSFC	"Making Configuration Management Work for You and Your Project" Debbi Filson Computer Sciences Corporation	"Modeling Correlations for Use in Cost-Risk Analysis" Stephen Book, Ph.D. MCR, LLC	"Turning Experts into Expert Teams" David Rogers SAIC	"Parametric Project Monitoring & Control - Performance-Based Progress Assessment and Prediction" Daniel Galorath Galorath Incorporated	"CASE STUDY: The Near Miss Effect in NASA Project Management" Catherine Tinsley, Ph.D. Georgetown University Edward Rogers, Ph.D. NASA GSFC	"NASA Project Managers: Having the Right Stuff" Jerry Mulenburg, Ph.D. NASA ARC	"The Challenges Encountered and Overcome During the Development of the Space Shuttle Orbiter Boom Sensor System (OBSS)" Irene Piatek NASA JSC
4:15 - 4:30	Break - Visit Exhibitors												
4:30 - 4:50	Ed Hoffman, Ph.D., Director of the NASA Academy of Program/Project and Engineering Leadership (APPEL), "NASA APPEL: Putting Project and Engineering Leadership into Action"												
4:50 - 5:30	Scott Pace, Ph.D., NASA Associate Administrator for the Office of Program Analysis and Evaluation, "Putting NASA Strategy Into Action: PA&E's Role in Mission Success"												
6:00 - 9:30	Reception												

Schedule Subject to Change.
As of February 21, 2006
